Off-site link kit: Kiran Global Exports

For Riya. Everything here is ready to copy and paste. Nothing has been submitted anywhere yet.

Why this matters: Google ranks a new website higher when other real websites mention it and link to it. The website already has enough pages. What it does not have yet is other sites pointing to it. Each listing below is one more of those.

Rules for every listing:

- Copy the name, address and phone **exactly** as in Part 1. The same spelling and the same spaces, everywhere. Google matches listings to the business by these three lines.
- Use only real photos: products on the website, the office, the team (with their consent). No stock photos, no AI images.
- No prices, no MOQ, no delivery times. We quote per specification.
- Do not buy links, reviews or "SEO packages". They can get the website penalised.
- After each listing, fill in the tracker (Part 9).

Part 7: Emails asking partners for a link

To V P Mundada (Solapur)

```
Subject: Link to our export website

Dear Mundada ji,

Thank you for our continued work together. Our export website is now
live at https://www.kiranglobal-exports.com/ and names V P Mundada as
our manufacturing partner in Solapur.

If your website has a page for partners, buyers or exporters, could you
add a link to us there, for example "Export partner: Kiran Global
Exports" linking to https://www.kiranglobal-exports.com/ ?

It helps buyers abroad find both of us. Happy to do the same for you
on our site.

Regards,
Rajneesh Sharma
Export Head, Kiran Global Exports

```

To Cotonex (Karur)

```
Subject: Link to our export website

Dear Cotonex team,

Our export website is live at https://www.kiranglobal-exports.com/ and
names Cotonex as our GOTS-certified partner for organic cotton linen,
on this page:
https://www.kiranglobal-exports.com/solutions/organic-cotton-linen-manufacturer/

If your website lists partners or export customers, could you add a
link to that page? It helps buyers find the organic linen we develop
together.
